It is understood that the Examiner has received a copy of the International Search Report and copies of the documents cited therein (Documents B1, B2, B4, B5 and B21). If this is incorrect, the Examiner is kindly requested to contact the undersigned to request copies.

Document A2, which issued in April, 2003, claims priority from the same US provisional application as Document B18.

In addition, Applicants would like to provide the Examiner with the following background information:-

Serial No. 10/030,188

BACKGROUND INFORMATION

This application claims priority under 35 U.S.C. 119 from PCT/GB00/02302 (WO 00/76971, Document (B4)), which has entered the U.S. national stage as U.S. patent application serial number 09/926,712. The claims in the 09/926,712 application have been amended so as not to read on any of the compounds originally claimed in the present application.

The compounds claimed in this application were invented in the course of a research collaboration between Eli Lilly and Company (the assignee of record) and Protherics Molecular Design Limited (now Tularik Limited, a subsidiary of Tularik Inc). The predecessor company of Protherics Molecular Design Limited was Proteus Molecular Design Limited. By virtue of an agreement dated December 15, 1999, the invention claimed in the present application was subject to an obligation of assignment to Eli Lilly and Company at the time that the invention was made.

This application forms part of a portfolio of patent applications directed to serine protease inhibitors, some of which belong to Eli Lilly and Company, and some of which belong to Tularik Limited. The history of this portfolio traces back to a research project on serine protease inhibitors started by Proteus Molecular Design Limited. The undersigned is responsible for handling the applications in this portfolio.

A listing of the co-pending applications and patents in the portfolio is attached.

Eli Lilly and Company also owns a separate portfolio of applications and patents relating to serine protease inhibitors. PCT references belonging to this portfolio are

Serial No. 10/030,188

listed in the attached form PTO/SB/08A. Generally these PCT references have U.S. counterparts.

COMMUNICATION BY TELEPHONE

If the Examiner wishes to speak by telephone with the undersigned, the undersigned can be contacted by e-mail at martinahay@martin-a-hay.com, and would be pleased to telephone the Examiner in response.

Respectfully submitted,
